Bioline-Jato, Italy's #1 Professional Skin Care Line

A philosophy of Nature We all inherit a set of characteristics from the place we come from that eventually become part of our way of being and of looking at the world. A "corporate personality" is thus created which is a reflection of the territory itself. Always a symbol of NATURE, Italy's Trentino Alto Adige region indeed represents a place that has managed to preserve uncontaminated areas, towards which man behaves with the utmost respect, mixed in with a sort of reverential fear. This is the heart that beats within Bioline, as throughout its history it has never lost sight of its origins and instead can transfer them to the product in order to keep it unique and genuine.

Research and Beauty The promise, the sincerest one, captures values that have been handed down for over 30 years, enclosed in the pay-off RESEARCH AND BEAUTY. Nonstop cosmetic research and use of cutting-edge technologies are placed at the service of beauty in the widest sense: the expression of well-being and health. A team of professional cosmetologists, chemists, dermatologists and biologists are constantly working towards developing safe cosmetics that preserve the purity and cosmetic effectiveness of all natural ingredients. Groundbreaking laboratories and modern facilities represent the heart of the production process, ensuring safety, reliability and product quality.
